

WHERE OPPORTUNITIES ABOUND

OPPORTUNITIES TO DEVELOP YOUR INTELLECT AND SKILLS, TO GROW IN FAITH AND CHARACTER, TO KNOW AND TO BE KNOWN.

OUR SCHOOL OF INFINITE POSSIBILITIES

WHERE YOU ARE KNOWN BY NAME... AND VALUED FOR WHO YOU ARE.

JOHN DE BOER
M. ED., PRINCIPAL

"We immerse ourselves in the complexities of knowing each student as a wonderful creation of God... and we do it with the passion that first attracted us to education, and especially to King's."

OPPORTUNITIES ABOUND

King's Christian Collegiate serves high school students in Grades 9 through 12 from Oakville, Mississauga, Burlington and the surrounding area. Our goal is to provide students with every opportunity to succeed in the present and beyond to university, college or careers. By providing an environment rich with opportunities and academic challenges, we equip young adults to think proficiently, to serve locally and to engage in the global community.

THE LEARNING COMMONS

A DEEP RESPECT FOR THE LEARNER MOTIVATES EXEMPLARY INSTRUCTION AND CHARACTERIZES EDUCATORS WHO CARE FOR THE LEARNING OF ALL STUDENTS.

"The Learning Commons guides students in using appropriate strategies and support to reach their academic goals. We welcome every student who requires learning advice and assistance, direct help with a task at hand, a quiet place to study, access to learning support software, a place for a lunch time learning discussion group, or a quiet setting for test writing. The ultimate goal is that each student will work towards fully independent learning."

RESEARCH & DEVELOPMENT

WEEKLY RESEARCH AND DEVELOPMENT SESSIONS FACILITATE COLLEGIAL DIALOGUE AMONG FACULTY MEMBERS, WHERE THE EMPHASIS IS ON THE DEVELOPMENT OF TEACHER EXPERTISE AND THE BUILDING AND REFINING OF SKILLS.

BENEFITING STAFF AND STUDENTS

The best predictor for student success is the expertise of skilled teachers who are committed to the well-being of their students. The weekly Research and Development sessions at King's provide a time and place for teachers to deepen their expertise and sharpen their skills — skills that have far-reaching implications for students and school culture. Teaching is a complex, ever-evolving paradigm. There is a dynamic of growth that draws people together into an ethos of collegial vibrancy when teachers talk to teachers from week to week about their own learning and best practices for working with students. So, when someone asks “What is the single most important activity you do at King's to stay on your core task?” the answer is simple — Friday morning Research and Development.
