

## FOCUS & MISSION

**KING'S CHRISTIAN COLLEGIATE IS COMMITTED TO PROVIDING EXCELLENT INSTRUCTION AND TO NURTURING STUDENTS TOWARDS EXCEPTIONAL CHARACTER. EACH INDIVIDUAL, WHETHER A STUDENT OR A STAFF MEMBER, IS A TREASURED PART OF OUR COMMUNITY. WE ACTIVELY MAINTAIN A CULTURE OF SHARING AND SAFETY, ENSURING THAT EACH INDIVIDUAL HAS A PLACE IN OUR SCHOOL.**

In this environment of learning and growth, King's students work towards their full potential and are known for their accomplishments. King's is a Christian school encouraging all students to experience God in every facet of life and to follow the model of Jesus Christ in all their endeavours.

Parents, students and the wider academic community recognize the excellence of the King's instructional program. Skilled and passionate teachers equip our students with a solid academic foundation, preparing them for the renowned university programs of their choosing. King's students are superb learners, with exceptional skills for navigating the transition to adulthood. Our school recognizes differences in learning styles and abilities, providing opportunities for each student to be positioned for success.

King's is committed to ongoing learning amongst its faculty, whereby teachers continually hone their instructional knowledge and skills through participation in the signature Research and Development program each Friday morning. By investing time and resources in our teachers, we ensure that students receive exceptional instruction in the classroom.

Our school culture is based on mutual respect and the nurturing of our hallmark positive environment. King's students are expected to demonstrate strength of character and caring towards one another, teachers, and staff. A culture of respect infuses school policies and practices, and the outcome is an environment of respectful treatment which is systemically embraced by both students and staff.

King's believes that high-quality instruction occurs best in a high-quality environment. Situated in the Greater Toronto Area (GTA), our modern school building is recently built and features leading technologies for the facilitation of learning. The building's architecture was intentionally designed to encourage creativity, with large windows providing inspiring views and natural light. The classrooms are bright and cheerful, and the wide hallways feature skylights and conversation nooks. Our exceptional facilities also include a fully-equipped art studio, a theatre stage, a state-of-the-art 4000 square-foot music conservatory, a large bright gymnasium and a dual purpose artificial turf sports field.
